Duration - 30 Hours

**Learning outcomes:**

- To understand the basic concepts and rules for plotting graph
- To acquire basic knowledge of different types of variables
- To understand the types of line graphs
- To learn error analysis and the role it plays in experimental science
- To gain the knowledge of measuring least count of various instruments

**Course outcomes:**

- On successful completion of this course, students will be able to
- Plot the graph with proper scale and axis
  - Identify the dependent variables and independent variables
  - Apply the different types of line graphs in physics
  - Identify the types and patterns of errors
  - Measure the precision of the instruments

**Unit-I: Graphs:** Introduction – Quadrants- Variables – Dependent and Independent Variables - Origin - Shifting the Origin – Intercepts – Gradients – plotting and Making graphs - Slope-Intercept forms

**Unit –II: Relationship in Graphs:** Meaning of Proportional - proportionality- directly proportional, inversely proportional – line graphs – types of relationships – linear, Inverse, Inverse Square, Power, Exponential, Logarithm

**Unit-III: Measurement and Errors:** Accuracy and Precision – Errors in Measurement -Error Analysis – Significant Figures – Definition and Rules of significant figures – Rounding Off- Dimensional Analysis

**Unit –IV: Least Count Measurement:** Least Count – Meter scale –Voltmeter – Ammeter – Vernier Caliper – Screw Gauge – Spectrometer – Travelling Microscope – Least Count and Precision.

**Unit-V: Scientific Modeling:** Equations, formula and expressions-Variables, constants and co-efficients-Operations and symbols-Calculations using formula –order of operation.

REPORT**

Thirty days value added course was conducted for third year B.Sc. Physics students entitled “WIRING AND REPAIRING OF DOMESTIC APPLIANCES” by the Department of Physics, Sourashtra college, Madurai – 625004, Tamil Nadu, India. Course was started at 19.01.2023. Course coordinators Mrs. K.S. Mahalakshmi, Dr. M. Balaji and Dr. N.R. Senthil Kumar were conducted the classes in addition to their working hours. In these course basics of household wiring, earthing, working principle of home appliances and its repairing process were explained to the students theoretically as well as practically. All the B.Sc. Physics final year students were actively participated in the course. The valedictory function was conducted on 13.04.2023. All the faculty members of the department were participated in this programme and felicitate the students. Dr.A.K. Balasubramanian, Head & Associate Professor of the department convened the programme. In his felicitation address he encouraged all the students and coordinators for their involvement and successful completion of the course. All the final year students were received the certificates for their successful completion of course.

### Value added Course

- ❖ This course is open to U.G Third year Chemistry students only
- ❖ Title of the paper : “House Hold products preparation”
- ❖ Duration of the course : 30 Hours

#### COURSE OUTCOMES

On the successful completion of the course, students will be able to prepare the consumer products which are useful in day-to-day life.

#### OBJECTIVES:

1. Students gain the basic knowledge in consumer product Chemistry
2. To provide the practical training to the students in consumer product analysis.

**Unit: I SOAPS:** General consideration in soap - Manufacture of soaps - toilet soaps and transparent soaps- Metal soaps - Herbal soaps - cleansing action of soap - soft soaps - Shaving soaps and creams- ISI specification - Testing procedures / limits

**Unit: II DETERGENTS:** Anionic detergents: - Preparation of acid slurry - Different ingredients in the formulation of detergent powders and soaps - Liquid detergents - Foam boosters - AOS (alpha olefin sulphonates) - Cationic detergents: - Manufacture and applications-Non-ionic detergent :- Manufacture of ethylene oxide condensates -Mechanism of action of detergents - Comparison of soaps and detergents - environmental effects-ISI specification - Testing procedures/ limits.

**Unit: III SHAMPOO:** Manufacture of SLS and SLES ingredients- functions - Different kinds of shampoos - Antidandruff- Antilice - Herbal and baby shampoos - Hair dye -Manufacture of conditioners - Coco betaines or Coco diethanolamides- ISI specification - Testing procedures/ limits.

**Unit: IV SKIN PRODUCTS PREPARATION:** Face and skin powders -Ingredients - Functions - - Snows and face creams - Chemical ingredients used - Anti perspirants - Sun screen preparations - UV absorbers - Turmeric and Neem preparations - Vitamin oil - Nail polishes: Nail polish preparation - Nail polish removers - Article removers- Lipsticks - Roughts - Ingredients and Functions - Hazards-ISI specification.

**Unit: V SMALL SCALE UNITS:** Production of natural perfumes – flower perfumes – agarbatties – Cleaning powder - naphthalene balls – shoe polish – gum paste – fountain pen ink – chalk crayons – Phenoyl- pain balm

### **Department of Master of Computer Applications (SF)**

#### **Organises**

### **CAREER DEVELOPMENT COURSE**

**Duration: Even Semester of the Final Year 2022 – 2023**

**Participants: Final Year Students (11 Nos)**

**Venue: MCA Class Rooms & Laboratory**

#### **Introduction**

The Department of Master of Computer Applications (SF) is dedicated to nurturing the future of our final-year students by equipping them with essential skills and knowledge through our comprehensive Career Development Course to the enhancement of employability. This course, conducted during the even semester (in regular basis - attendance maintained in the class attendance register), spans six hours per week, aiming to prepare our students for their imminent transition into the professional world.

#### **Syllabus Categories**

To provide a well-rounded and enriching learning experience, we have meticulously crafted the course syllabus under three distinct categories:

##### **1. Technical**

**- Instructor: Dr. K. Anuratha**

**- Duration: 2 hours per week**

Dr. K. Anuratha, a seasoned professional in the technical domain, conducts technical classes that focus on honing the students' technical knowledge. These sessions aim to bolster their understanding of fundamental concepts and prepare them for technical interviews.

## **2. Aptitude**

**- Instructor: Mrs. T.L.M. Meenalochani**

**- Duration: 2 hours per week**

Mrs. T.L.M. Meenalochani, an expert in aptitude training, leads this section of the course. The aptitude classes delve into quantitative and logical reasoning, helping students strengthen their problem-solving abilities. These skills are indispensable for success in various competitive examinations and job interviews.

## **3. Communication**

**- Instructor: Dr. V. Vasanthakumar**

**- Duration: 2 hours per week**

The communication aspect of the course is designed to empower students with effective communication skills. It involves activities such as enhancing verbal and written communication, which are crucial in professional settings. Dr. V. Vasanthakumar, an experienced educator, guides students in developing their communication prowess.

### **Class Activities:**

Throughout the Career Development Course, students engage in a diverse range of activities, fostering practical learning experiences. These activities include:

**Logical Thinking and Code Challenges:** Students practice logical thinking and participate in code-challenging programs, enhancing their problem-solving skills.

**Aptitude Question Discussions:** Students tackle aptitude questions sourced from various reputable webpages, receiving guidance and insights from their instructor.

**Group Activities:** Students work in groups, fostering teamwork and cooperation, and conduct quizzes to reinforce their learning.

**Resume Building:** Students are guided in creating impactful resumes, both single-page and multiple-page versions, to showcase their skills and achievements effectively.

**Group Discussions:** Group discussions enable students to refine their communication skills and articulate their thoughts persuasively.

**Mock Interview:** Mock interview simulate real-world job interviews, providing students with invaluable experience and feedback.

Our Career Development Course seeks to empower our final-year students with a holistic set of skills, preparing them for a successful transition into their chosen careers. By fostering a supportive and engaging learning environment, we aim to equip our students with the confidence and competence needed to excel in the professional world.

### **Conclusion:**

In closing, the Career Development Course conducted by the PG Department of Computer Applications (SF) serves as a beacon of empowerment for our final-year students. Throughout this comprehensive program, we have endeavored to equip our students with a well-rounded skill set that is indispensable in the dynamic and competitive professional landscape.

The engaging class activities, encompassing logical thinking challenges, aptitude question discussions, group dynamics, and mock interviews, have not only honed practical skills but also instilled a sense of teamwork and adaptability. The resume-building exercises have enabled our students to create compelling narratives of their achievements and capabilities.

As our students bid adieu to their academic journey and venture into the corporate world, we believe that they are well-equipped to thrive and contribute meaningfully to their chosen fields. We take pride in witnessing their transformation into confident, skilled, and future-ready professionals. We extend our best wishes to our graduating students, confident that they will carve out successful and fulfilling career paths.
